

# Overview of Track Changes for Clinical Science Departments

Effective Jan 1, 2021 for existing faculty who did not opt out. Effective July 1, 2020 for new faculty.

\*Clinical Effort Area or \*\*Research Effort Area – NOTE: Clinical and Research designations are not sub“tracks”. This designation will be used only for internal purposes to identify faculty effort areas. Research should be chosen in the existing dFac subtrack drop down box for faculty who engage 80% or greater in research and instruction. Clinical should be chosen for all others.

**Processing in dFac (1547, 1546, 1542, 1541):** For faculty who did not opt-out, Subtracks I & II will be moved to Clinical Effort Area\*. Faculty in Subtrack III will be moved to Research Effort Area\*. This will be done using the Appointments form with the “Update Existing Appointment” reason.

**Processing in dFac (1583, 1586, 1582, 1585, 1581, 1584):** For faculty who did not opt-out, an appt change of status form will need to be processed which will reclass the position to one of the new job codes (1579,1587,1588). These new appointments will be 18-months (1/1/21 – 6/30/22). The designation of Clinical Effort Area\* or Research Effort Area\* will also be determined.
