DUKE DPT PREREQUISITE OVERVIEW

- All prerequisite courses must be completed with a grade of C or better
- Pass/Fail will be accepted for courses taken during the pandemic
- Each prerequisite course must fulfill the 3 semester or 5 quarter credit requirement
- **Anatomy and Physiology courses must be taken within 5 years of application**
  - Evolutionary and comparative anatomy courses will **NOT** be accepted
- Labs are not required, but are recommended
- Introductory courses should be reviewed by the committee to determine acceptance. Please send a copy of the course syllabus to dptadmis@dm.duke.edu
- AP/IB credits will be accepted **IF** they were accepted by your undergraduate institution
- Community college courses are accepted; however, our Admissions Committee prefers for prerequisite courses to be completed at a 4-year institution (especially science course, i.e. Anatomy, Physiology, Biology, Chemistry, Physics)

<td>Anatomy</td>
<td>3/5</td>
<td>Human or Vertebrate Anatomy</td>
<td>Recommended courses focus on the musculoskeletal system and its neural control: - Muscle origins - Muscle insertions - Muscle actions - Innervation patterns Courses based on human cadaver dissections or prosected human preparations are recommended.</td>
<td>Anatomy courses taken in sequence (e.g. A&amp;P I and II usually offered by a biology department) or anatomy courses taken separately (usually offered by an exercise science, kinesiology, or other allied health department) will be accepted.</td>
</tr>
<tr>
<td>Physiology</td>
<td>3/5</td>
<td>Human or Vertebrate Physiology</td>
<td>Recommended courses focus on: - Striated muscle - Cardiac muscle - Cardiovascular Regulation - Respiration &amp; Gas Exchange - Hormonal Control - Thermoregulation - Acid-Base Homeostasis</td>
<td>Physiology courses taken in sequence (e.g. A&amp;P I and II usually offered by a biology department) or physiology courses taken separately (usually offered by an exercise science, kinesiology, or other allied health department) will be accepted.</td>
</tr>
<tr>
<td>Biological Science</td>
<td>6/9</td>
<td>General or Upper Level Biology</td>
<td>A general biology course and/or an upper level courses such as embryology, histology, immunology, microbiology, molecular, genetics, cell, exercise physiology (if not used to fulfill physiology prerequisite), etc. will be accepted.</td>
<td>This prerequisite can be fulfilled by: 1. Taking 2 general biology courses (BIO I/II) 2. Taking 2 upper level biology courses 3. Taking 1 general biology course and 1 upper level course. All courses must be taken within a Biology Department (with the exception of exercise physiology).</td>

| Chemistry     | 6/9                           | General or Upper Level Chemistry | A general chemistry course and/or an upper level courses such biochemistry, inorganic, or organic will be accepted. | This prerequisite can be fulfilled by:  
1. Taking 2 general chemistry courses (CHEM I/II)  
2. Taking 2 upper level chemistry courses  
3. Taking 1 general chemistry course and 1 upper level chemistry course  
All courses must be taken within a Chemistry Department. |
| Physics       | 6/9                           | General Physics | Recommended courses focus on:  
- Light, Heat, Electricity, Mechanics, Sound, etc.  
A biomechanics course can be used to replace the Physics II course. | This prerequisite can be fulfilled by taking a Physics I and Physics II course sequence. Courses must be taken within a Physics Department. |
| Statistics    | 3/5                           | Statistics    | Recommended courses include: biostatistics, business statistics, psychology statistics, general statistics, biometry, quantitative analysis, research methods/design, or hypothesis testing. | Calculus and non-calculus based statistics courses will be accepted. All courses must be taken within a Mathematics or Psychology department. |
| Psychology    | 6/9                           | General or Upper Level Psychology | Recommended courses include: general, abnormal, child, developmental, biological, social, sports, etc. | This prerequisite can be fulfilled by:  
1. Taking 2 general psychology courses  
2. Taking 2 upper level psychology courses  
3. Taking general and upper level psychology courses.  
These courses should be taken within a Psychology Department; however, sports psychology will be accepted. |

* Please note: Information in the ‘Comment’ section is based on the semester system. If your institution uses the quarter system please make the necessary adjustments (ex: instead of just taking BIO I/II, if under quarter system you may need BIO I/II/III to fulfill prerequisite credit requirement).
