BIOTRAIN 754 “The Responsible Scientist II”
Spring 2023

Course Director: Erika Crosby, Ph.D.  
OBGE RCR/R&R Curriculum Manager  
Location: Nanaline Duke, Room 147

Email: erika.crosby@duke.edu  
Phone: 919-684-6205  
Office: MSRBI room 497

Day/time: Thursday, 9-10 AM

Overview:
This course is developed to engage Biomedical Ph.D. trainees in continued Responsible conduct of research, Rigor and Reproducibility RCR/R&R training, an emerging mandate from the National Institution of Health (NIH) and future requirement for NIGMS T32 Pre-Doctoral Training grants. The course is directed by the RCR Curriculum Manager in the Office of Biomedical Graduate Education (OBGE) in Duke School of Medicine and it is team-taught by faculty members from each SoM Ph.D. training program. The content is delivered as a combination of lectures, small group discussions and online based learning modules. This course is part of a curriculum that covers much more than research ethics. The topics included in this curriculum as mandated by the NIH include:

1. Conflict of interest – personal, professional, and financial
2. Policies regarding human subjects, live vertebrate animal subjects in research, and safe laboratory practices
3. Mentor/mentee responsibilities and relationships
4. Collaborative research including collaborations with industry
5. Peer review
6. Data acquisition and laboratory tools; management, sharing and ownership
7. Research misconduct and policies for handling misconduct
8. Responsible authorship and publication
9. The scientist as a responsible member of society, contemporary ethical issues in biomedical research, and the environmental and societal impacts of scientific research
10. Rigor of the prior research; scientific premise
11. Scientific rigor in experimental design
12. Biological variables
13. Authentication

Course Requirements and Expectations:
This course will have a weekly assignment or meeting. While you will not receive a numeric grade, all modules must be completed and live class meetings attended. Each live lecture will require you to submit an attestation on Sakai that you either attended the lecture or watched the recording in its entirety. There will be a 1 missed class/assignment grace policy. If you miss 2 classes/assignments, you will be required to complete an additional RCR forum to receive credit for BIOTRAIN754. If you miss 3 or more classes or assignments, you will be required to retake the course next Spring. A reminder that this course is a REQUIREMENT for graduation.

Sakai Site and Meetings:
All course materials, modules, video recordings, and zoom links will be available on the course Sakai site. Lectures will be offered live at the scheduled class time, and attendance will be taken. Attendance at the live lecture is not required as all lectures will be recorded and posted on the Sakai site within 24 hours. If you do not attend live, you will be required to view the lecture online and attest that you have watched the lecture in its entirety. The attestation will not be available until the video has been viewed.
### Tentative Schedule:
Changes to the schedule are at the discretion of the course director and will be communicated in a timely fashion.

Objectives & Student Learning Outcomes (SLOs):
By the end of the course, participants will be able to demonstrate the following learning outcomes:

Objective 1: Gain knowledge about responsible conduct of research (RCR)
   SLO i: Recognize and follow ethical research practices

Objective 2: Be exposed to ethical decision making (EDM) in RCR
   SLO ii: Use a moral method to address an ethical issue
   SLO iii: Know that there are (might be) a plurality of views

Objective 3: Exhibit moral courage
   SLO iv: Report unethical practices when encountered
   SLO v: Recognize that “authority figures” aren’t always “right”

Objective 4: Demonstrate Integrity
   SLO vi: Be conscious of your integrity and the integrity of those around you

Disability Statement:
Students with disabilities who believe that they may need accommodations in the class are encouraged to contact the Office of Services for Students with Disabilities at 684-5917 or disabilities@aas.duke.edu as soon as possible to better ensure that such accommodations are implemented in a timely fashion.

Academic Integrity:
Duke University is a community dedicated to scholarship, leadership, and service and to the principles of honesty, fairness, respect, and accountability. Citizens of this community commit to reflect upon and uphold these principles in all academic and non-academic endeavors, and to protect and promote a culture of integrity. To uphold the Duke Community Standard:
   The student will not lie, cheat, or steal in their academic endeavors;
   The student will conduct themself honorably in all their endeavors; and
   The student will act if the Standard is compromised.

Students should also read the Duke policy on Academic Dishonesty at https://studentaffairs.duke.edu/conduct/z-policies/academic-dishonesty
