QUICK TIP: Placing a Non-Emergency Individual Patient IND Order

To place an order for a research study medication for an individual patient for non-emergency use:

- Log in to Maestro Care & enter IP RESEARCH VIRUTAL in the Department field.

- Go to the Patient Lists activity and open the admission encounter.
  - Or open the appropriate outpatient encounter if the patient is not admitted.

- In the admission encounter, click on the Orders activity tab and search for the appropriate eIRB protocol number (Pro00XXXXXX) in the search field.

- Select the appropriate order and click Accept.

- Fill in the necessary items (dose, route, frequency, etc.) in the order composer and click Accept and Sign the order.
