# QUICK TIP: **Placing an Emergency Individual Patient IND Order**

When research study medications are needed for an Admitted patient and the orders are not built in Maestro Care:
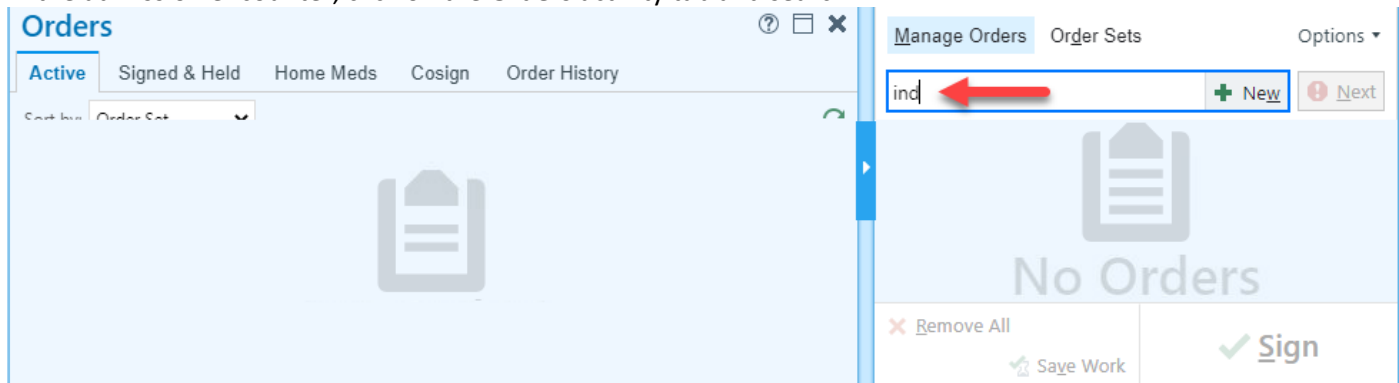

- Log in to Maestro Care & enter **IP RESEARCH VIRUTAL** in the Department field.

- Go to the **Patient Lists** activity and open the admission encounter.

- In the admission encounter, click on the **Orders** activity tab and search **IND**.

- Scroll through the list and select the **IND Emergency Use Medication** (make sure to select the inpatient order with the bed icon) and click **Accept.**

- Fill in all required fields (stop signs), then click **Accept** and **Sign** the order.

IND Emergency Use Medication ✔ Accept ✖ Cancel

Order Instructions: Enter as much information as possible. Drug interaction checking will not occur for this order.
