

Schools of Medicine and Nursing Research Mentoring Awards

Purpose of the Award:

The Research Mentoring Awards, established in 2009, recognize faculty members of the Schools of Medicine and Nursing with excellence in research mentoring. Excellence can be demonstrated in many ways such as by the accomplishments of individual mentees, by programs implemented by the mentor, or by exceptional creativity in mentoring. Winners will be recognized each year in the following categories: basic science, clinical science, and translational research.
