

Quick Tip: Placing a Non-Emergency, Individual Patient IND Order

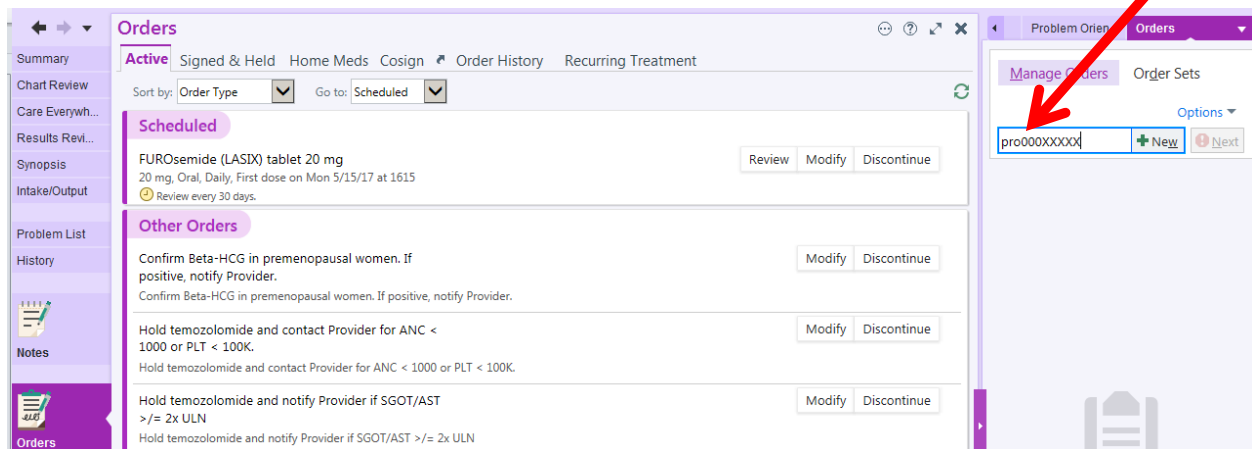

To place an order for a research study medication for an individual patient, non-emergency use->Log in to the department at sign->IP Research Virtual.

1. Open admission encounter from the Patient List activity (open appropriate outpatient encounter if patient is not admitted).

2. From the Orders Activity, search for the appropriate eIRB protocol number (Pro000XXXXX).

3. Select the appropriate order.
